PETITION TO WITHDRAW HOLDING OF ABANDONMENT BASED ON FAILURE TO
RECEIVE OFFICE ACTION

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Firstly, pursuant to MPEP 711.03(c)(I)(A) and 37 CFR 1.181, Applicant hereby requests the withdrawal of the holding of abandonment of U.S. Patent Application 10/522,690 based on the failure to receive an Office Action. No fee is required. As shown below, all the requirements for the petition are provided herein. The detailed requirements for showing non-receipt of an Office Action as set forth in MPEP 711.03(c)(I)(A) are provided in Appendix 1. Appendix 2, Appendix 3, Appendix 4, and Appendix 5 show a copy of an envelope that appears to be stamped "RETURNED TO SENDER" and "NO SUCH ADDRESS," an informational sheet on the docket system, docket information for the instant application, and master docket showing all replies docketed for a period from February 11, 2008 to May 11, 2008, respectively.

Secondly, it is respectfully submitted that the Patent Office erroneously held this case to be abandoned because the issue fee was paid on June 5, 2008, about three months before the Patent Office sent a Supplemental Notice of Allowance. The fact that the Patent Office sent a

Supplemental Notice of Allowance after the issue fee was paid plainly shows that the case was not abandoned at the time the Supplemental Notice of Allowance was sent.

FACTS

The Notice of Abandonment refers to Applicant's failure to timely pay the required issue fee and publication fee, if applicable, within the statutory period of three months from the mailing date of the Notice of Allowance, which had a mailing date of February 11, 2008. However, the Notice of Allowance was never received at the correspondence address of record and a search of the law firm's docket indicates that the Notice of Allowance was never received from the post office.

Applicant was not aware of the Notice of Allowance mailed on February 11, 2008 until supplemental Notices of Allowance were mailed on May 12, 2008 and September 15, 2008 in response to a telephone call to the Examiner; both Notices of Allowance had mailing dates beyond the three month statutory period. Applicant promptly checked the Patent Application Information Retrieval (PAIR) system and retrieved the Notice of Allowance mailed on February 11, 2008, which had attached a copy of an envelope that appears to be stamped "RETURNED TO SENDER" and "NO SUCH ADDRESS." See attached Appendix 1. According to PAIR, the Notice of Allowance was returned to the USPTO on February 26, 2008. Upon such discovery, Applicant immediately contacted the Examiner and promptly paid the issue fee and publication fee on June 5, 2008.

RULE—MPEP 711.03 (c)(I)(A) requires:

(i) [A] statement from the practitioner describing the system used for recording an Office action received at the correspondence address of record with the USPTO.

(ii) [A] statement that the Office action was not received at the correspondence address of record, and that a search of the practitioner's record(s), including any file jacket or the equivalent, and the application contents, indicates that the Office action was not received.

(iii) [A] copy of the master docket report showing all replies docketed for a date three months from the mail date of the non-received Office action must be submitted as documentary proof of non-receipt of the Office action.

PURSUANT TO MPEP RULES, THE REQUIRED INFORMATION IS HEREBY PROVIDED

(i) The system used for recording an Office action received at the correspondence address of record with the USPTO is described herein. Specifically, our docket system is a reliable system for deadline reminders. The system keeps track of information in an organized manner and yields comprehensive records for all applications, including the application number, attorney docket number, the mail date of the Office Action (See attached Appendix 4 under "Action Taken" for the Action "Office action rec'd), and the due date for the response (See attached Appendix 4 under "Action Taken" for the Action "Response due").

(ii) The Office action was not received at the correspondence address of record, and that a search of the practitioner's records, including any file jacket or the equivalent, and the application contents, indicates that the Office action was not received. In fact, PAIR indicates that the non-received Notice of Allowance was returned to the USPTO by the sender, see attached PAIR record. A search of the docket system reflects the fact that the Notice of Allowance was never received from the post office. Specifically, docketing information is attached for the instant application (see attached Appendix 4) and an informational sheet showing what occurs when a Notice of Allowance is received (see attached Appendix 3). When a Notice of Allowance is

received, the docket system is updated by putting in the deadlines for the issue fee and the publication fee. As shown in the docket information for the instant application with identifying information on the coversheet, there are no issue fee and publication fee deadlines listed for this application during the relevant time periods.

(iii) A copy of the master docket report showing all replies docketed for a date three months from the mail date of the non-received Notice of Allowance is attached (see attached Appendix 5). As shown in the master docket, Office Actions were received, docketed, and updated as replies were filed in response to them, but the Notice of Allowance mailed February 11, 2008 was never received from the post office for this application.

Based on MPEP 711.03(c)(I)(A), the showing above is sufficient. Most emphatically, the circumstances clearly point to a conclusion that the Notice of Allowance was never received from the post office because the Notice of Allowance was returned to the USPTO on February 26, 2008 by the post office as shown in PAIR and our docket system reflects that fact.

Should any additional information be required, or should there be any other problems in the handling of the Petition, the undersigned patent attorney can be contacted by telephone to expedite those matters.

Respectfully submitted,

A handwritten signature in cursive script, reading "Elizabeth Q. Shipsides". The signature is written in dark ink and is positioned above the printed name and registration number.

CERTIFICATE OF ELECTRONIC TRANSMISSION

I hereby certify that this paper is being transmitted electronically to the U.S. Patent and Trademark Office on the date shown below.

October 6, 2008

Date

Elizabeth Q. Shippides

Appendix 1

I. The showing required to establish nonreceipt of an Office communication must include:

A. a statement from the practitioner describing the system used for recording an Office action received at the correspondence address of record with the USPTO.

1. The statement should establish that the docketing system is sufficiently reliable.

2. It is expected that the record would include, but not be limited to, the application number, attorney docket number, the mail date of the Office action and the due date for the response.

B. Practitioner must state that the Office action was not received at the correspondence address of record, and that a search of the practitioner's record(s), including any file jacket or the equivalent, and the application contents, indicates that the Office action was not received.

1. A copy of the record(s) used by the practitioner where the non-received Office action would have been entered had it been received is required.

2. A copy of the practitioner's record(s) required to show non-receipt of the Office action should include the master docket for the firm.

C. That is, if a three month period for reply was set in the nonreceived Office action, a copy of the master docket report showing all replies docketed for a date three months from the mail date of the nonreceived Office action must be submitted as documentary proof of nonreceipt of the Office action.

D. If no such master docket exists, the practitioner should so state and provide other evidence such as, but not limited to, the following: the application file jacket; incoming mail log; calendar; reminder system; or the individual docket record for the application in question.

II. The showing outlined above may not be sufficient if there are circumstances that point to a conclusion that the Office action may have been lost after receipt rather than a conclusion that the Office action was lost in the mail (e.g., if the practitioner has a history of not receiving Office actions).

III. Evidence of nonreceipt of an Office communication or action (e.g., Notice of Abandonment or an advisory action) other than that action to which reply was required to avoid abandonment would not warrant withdrawal of the holding of abandonment. Abandonment takes place by operation of law for failure to reply to an Office action or timely pay the issue fee, not by operation of the mailing of a Notice of Abandonment.
